National Qualification Framework

The three regulatory authorities have updated the National Qualifications Framework for England, Wales and Northern Ireland as part of a review of regulatory arrangements. (The three regulatory authorities are QCA, ACCAC and CCEA).

The NQF is designed to help with career progression and act as a guide to learners to make informed decisions about their training needs.

It aims to:

- promote access, motivation and achievement in education and training, strengthening international competitiveness
- promote lifelong learning by helping people to understand clear progression routes
- avoid duplication and overlap of qualifications while making sure all learning needs are covered
- promote public and professional confidence in the integrity and relevance of national awards.

The following table provides an indication of the new frameworks.

National Qualifications Framework	Framework for Higher Education Qualification levels (FHEQ)
