	Clients	Tenants, internal and external stakeholders – shared responsibility for the general wellbeing and safety of those who use the service, the general public	
Duties and key result areas:			
<ul style="list-style-type: none"> • Undertake internal and external central heating repairs and installations to the highest standard in accordance with work requests and pre-determined specifications to a wide range of heating systems. Including but not limited to Gas appliances, oil, solid fuel and renewable systems as directed by the Heating and Mechanical Team Leader. • Responsible for the Customer Interface process during the installation period which includes liaison with the customer on access and when to do specific tasks in various rooms for the period of time in the customer's property • To ensure that gas servicing, installation and repairs are carried out to gas safe regulations, building regs and applicable British Standards. • Completion of appropriate certification and updating systems on completion of works. • To ensure that adequate store and materials are available in order to undertake the required repair. Employees will be responsible for the maintenance of their imprest stock levels. They will be required to keep such materials in a secure fashion and replenish stock as necessary, keep proper records, to itemise stock usage on individual works orders and immediately notify their supervisor of any discrepancy or losses discovered, if they occur. • To undertake a visual inspection of any vehicle used by the post-holder to ensure that lights, tyres washers and wipers are in a serviceable condition. Vehicles must be driven with courtesy and care and kept clean and tidy by users Complete daily vehicle inspections every morning prior to starting work record any defects using the Council's processes and procedures Ensure vehicle defects are reported to the councils vehicle workshop as soon as possible • To ensure that all work is completed on time and to a high standard. • Where a detailed specification is not provided to assess and undertake the most cost effective repair solution to remedy the defect. Where necessary seeking authorisation from the Team Leader before proceeding. • Work to an appointment system and complete work within priority timescales. • Work subject to quality inspection 			

- Comply with all legislative and codes of practice in respect of gas servicing, installation and safety. (Including the testing and maintenance of any safety devices or alarms fitted within properties e.g. Smoke and CO detectors as part of annual servicing / inspection).
- Undertaking any necessary draining and re-filling of central heating systems before leaving site.
- To assess whether an appliance represents a danger to the occupant where a repair cannot be affected immediately to append a potentially dangerous appliance notice to the defective equipment. Give advice to the occupant concerning the notice and the use of the appliance. Where necessary make arrangement with the Team Leader for the provision of temporary heating.
- Following a leak of water in the vicinity of any electrical fittings ensure that the relevant electrical circuit is switched off and an electrician is called to ensure the safety of the wiring and electrical fittings.
- To ensure that a high level of customer care is adopted when undertaking repair or construction work.
- To have a sound knowledge of relevant sealants, compounds, glues and fixings and to ensure any preparations and applications are undertaken in accordance with the manufacturer's instructions.
- Ensure the services provided represent value for money and, if services are not provided in line with the service standards set, take appropriate action promptly to remedy service delivery shortfall.
- The post holder will be committed to multi-skilling to undertake peripheral or incidental work not directly associated with the post-holders main trade in order to complete a repair. E.g. minor plumbing, joinery, plastering and occasional brickwork. Minor electrical works, with appropriate training.
- Undertake periodic training and development as required by the needs of the service, to ensure changes in systems and emerging technologies can be managed and serviced in line with regulations and manufacturers requirements.
- Ensure that all work is carried out safely in line with H&S regulations, policies and procedures. Undertaking and contributing to Risk Assessments as and when required.
- Attend all toolbox talks and briefings as required by the service. Ensure compliance with organisational requirements for Data Protection, risk management, safeguarding, health and safety and other legal and statutory requirements, along with best practice and general duty of care. Including supporting the council's obligation to ensure community safety through making referrals as and when appropriate.
- To ensure confidentiality is maintained at all times.
- The duties and responsibilities highlighted in this Job Description are indicative and may vary over time. Post holders are expected to undertake other duties and responsibilities relevant to the nature, level and extent of the post and the grade has been established on this basis.
